

Serial No. **10/626,580**
Amendment dated July 12, 2006
Reply to Office Action of April 21, 2006

Docket No. **SI-0039**

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. – 26. (Canceled)

27. (Currently amended) A method for processing calls in a mobile communication system, comprising:

directing a call to a first mobile terminal;

ringing the first mobile terminal;

receiving a request from a second mobile terminal to pick up the call directed to the first mobile terminal in response to the ringing; and

transferring the call to the second mobile terminal in response to the request; and

transmitting information to the first mobile terminal indicating a number of the second mobile terminal that received the transferred call.

28. (Original) The method of claim 27, wherein the first and second mobile terminals are located in a coverage area of a same base station or sector.

29. (Original) The method of claim 27, wherein the first and second mobile terminals are located in coverage areas of different base stations or sectors.

30. (Canceled)

31. (Previously Presented) The method of claim 27, further comprising:
storing information indicative a group of mobile phones eligible to pick-up calls for the first mobile phone; and
determining whether the second mobile phone is in said group, wherein said transferring is performed only if the second mobile phone is determined to be within said group.

32. (Currently amended) A system for processing calls in a mobile communication system, comprising:
a first mobile terminal, the first mobile terminal ringing in response to a call directed to the first mobile terminal;
a second mobile terminal, the second mobile terminal generating a request to pick up the call in response to the ringing; and
a processor which receives the request to pick up the call directed to the first mobile terminal and transfers the call to the second mobile terminal in response to the
